DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 8/24/2009 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of lida, U.S. Patent No. 6,209,787.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by lida, U.S. Patent No. 6,209,787.

Regarding claims 1-15, lida discloses a method for reselling content, comprising the steps of: (a) receiving, by a content server, content information (music)for, particular content to be resold from a seller terminal in reply to a request by a seller who wishes to resell the content over a communication network, and registering a content according to the content information in a database and (b) in reply to a request by a buyer to buy the secondhand content, searching for corresponding secondhand content and providing, by the content server, the corresponding secondhand content to a buyer terminal, and

transmitting sale information for the secondhand content to the seller terminal (col. 2, line 6-col. 7, line 11).

Iida further discloses paying a sale price for the secondhand content to the seller after charging a fee for the secondhand content to the buyer and paying to the seller an amount of money determined by subtracting a predetermined commission from a fee for the secondhand content paid by the buyer (col. 2, line 6-col. 7, line 11).
